The unfriendly spirit always to many. manifested by the Morinan community to those whom they term "Gentiles," is well known, and amounts to a kind of social ostracism. Without expressing any private opinion we may entertain, as to the desirability of associating with they inflicted by adhearing to their noninternourse policy, it certainly had the effect to cause the class, thus placed under ban, to organize some means for their own entertainment; hence the society known as the l'idig Men's Literary.

The elecantificate under which this institution some into existence, chused any political differences and proclivities growing from our National struggle, to he for the time being ignored; but by and by certain patriotic demonstrations with the phobia of treason since which time the status of the association has been in everything all that could be de-

Datt's Hall has been rented for one year, for the uses of the Association, and being open every day to members, supplied as it is with excellent reading matter, morely as a reading-room, it affords a desirable place of resort not elsewhere found in the city. It was under the anspices of this Society that the Rev. N. Mc Leod came to Dtah and was en bled to dispense his religious teachings to the. prople, as we hope and have reason to beliere, for their benefit, both temporal and spiritual. In view of the expected early arrival in Salt Lake-City of certain well known dignitaries from the east, it was deemed proper, by the Association, that steps should be taken to offer them fitting hospitalities while they should find it convenient, or destrable, to remain. Accordingly a meeting was called on the evening of the 5th inst, to take the necessary measures for securing the objects named, and, in persuance thereof a very enthusiastic assemblage convined at Datt's Hall. Howard Liv ingston. President of the Association. occupied the chair. A committee of afteen- was appointed to represent the Bociety, in tendering the proper hospi talities to our expected visitors and guests. They are as follows: His Excellency. J. Duan Doty Governor of Utab, Hon. John Titus. Chief Justice of Utab, Thos. J. Drake, Associate Judge Lt. Cot. Mile George, Com'dg. W. S. Dist. of the Plains, Rev. Norman Mc Leod, Capt. D. B. Stover, Capt. Willard Kittridge. Mesers Sbarp S. Walker. Geo, W. Carleton, William Gilbert. J. W. Kerr, Samuel Kabn, Thos. P. Ames, J. Merks and J. O. Dixon.

We are pleased to see that our distinguished visitors are thus to find a generous welcome in Utah, and by those too, who should, in the fitness of things. be the ones by all means, to make the tender of hospitality. Our Saintly neighbors should not be compelled to dissimulate so profoundly as this emergency would have required, had they been called upon to do the agreeable, as it would have severely tested even their well-known ability in that peculiar line, great as it unquestionably is, wherefore we are gratified exceedingly, in our kindness of beart, that they are spared the trying ordeal. Knowing their weakness, we hold it to be unmerciful. to place temptations in their way and, thus, become the indirect cause of leading them into deeper bibguinths of deeript than they might otherwise explore. vif not subjected to such needless temptation.

Just think what an appearance of pleasure they would have been compolled to ment outlink foreign to their feelings, in receiving these loyal representatives of the Nation; bow Brigham's supple go-betweens would have measured and managed to have it appears that the Plans of Deseret conde-sounded to give these strangers an audience, themselves meanwhile perfectly everflowing with protestations of undy ing devetion to the country—this, too, from men, who have been prophesying for years that it would be, and, more re-cently, exulting in their public places that it was, destroyed! Ye Gods! it would have been perfectly excruciating, and glad are we that they will not have to resort to such hypocrisy.

By an examination of the map of North America, and by tracing the boundaries above given. the reader will readily obtain a correct idea of the topography of Colorado.

The rocky mountain range, the great backbone of the American continent. runs through the Territory from north south, dividing the vast plains of the eastern slope from the extensive parks and savanuas which stretch away toward the Sierra Nevada. The eastern portion of Colorado embraces that mythical region laid down on the old maps as the "Great American Desert."

MINERALS-MINING, 4C.

As a gold-mining country. Colorado is second only to California. The Colorado gold mines differ from those of California in this particular, viz: That in the former the precious ore is generally found in extensive "lodes" of quartz and pyrites, while in the latter. placer and guich mining are the most extensive, and the most profitable. We do not mean to be understood by this that there are no placer mines in Colorado. Numerous guiches and ravines have been extensively worked in different parts of the Territory, and in some instances the yield has been astonishingly rich and abundant. But, up to the present time. the extensive discoveries of gulch, bar

in Colorado they are essential ones.

The machinery generally in use there for obtaining gold from the quartz or are is of very simple construction, consisting chiefly of an engine (or wheels, if water power is used.) and a set of stamps for crushing the ore. It is the opinion of all pragueal miners in Colo. rade, with only one or two exceptions. that the engines now in use there are by ne means large enough for the required use. The largest of them measures 14-

inch cylinder, and 54-inch stroke, runs 24 revolutions per minute, and carries about 50 pounds of steam. In Colorado this engine is estimated at 80 horse power. All other engines are likewise overrated, and to do the work required of them they are run at high speed. Most of the engines and stamping machinery have, thus fur, been made in St. Louis and Chicago. The principal waterwheel used is the over-shot, although here are some under-shet and breast-

In Colorado liberal laws are in force which gives to the fortunate discoverer of a quartz wien 200 local feet of the same. and to all others who apply in season 100 feet not already claimed. These claims are recorded in the Clerk's Office of the District, and by this process the the rights of the parties are secured and respected.

BINKING A SHAFT.

This is sometimes attended with great abor, and not a little expense. The cost of sinking a shaft four feet wide and twelve feet long through the "cap" is estimated to be about \$25 per running oot, if the shaft is from 60 to 100 feet leep: \$30 per foot if it is from 100 to 160 feet deep, and so on in proportion, the expense increasing with the depth, rubbish to the surface.

Much. of course, depends upon the hardness of the rock through which the shaft is sunk. In some cases a large proportion, or the whole of the expenses of the shaft is defrayed by the gold found the present town of Denver, on South luring the progress of the work. GOVERNOR CURTIN TO PRESIDENT JOHN sox .-- The Governor of Pennsylvania has addressed the following letter to President Johnson :

EXECUTIVE CHAMBER. HARRISBURG (Pa.), April 25, '65 Sir: I have just returned from reverently attending the remains of our mar-tyred President, on their passage through the commonwealth, and I avail myself of the first moment to assure you that, as Pennsýlvania has throughout steadily and effectively sustained the Govern ment in its efforts to crush the existing rebellion, so she and her authorities may be relied on to stand heartily by your administration, and that with the eurnest ness and vigor enhanced by the just horror which all her people entertain of the base and cowardly assassination to which your predecessor has fallen a vic-

I know that it is unnecessary to give you this assurance; but looking to the vast responsibilities that have been suddealy cast upon you, it has seemed to me that an express word of bearty encouragement from your friends cannot he otherwise than agreeable to you. I should have visited Washington to say this much to you in person, but I am unwilling just at this moment to incur the danger of interfering with the just discharge of your public duties by occupying your time.

I am, sir, very respectfully.

Governor Vance defeated the proposition for a Convention at the last session of the Legislature. If a Convention could have been called twelve months ago, as we earnestly desired it should be, the Pederal forces would never have invaded the interior of this State, and if a and consequent difficulty of drawing Convention had been called at the last session of our Legislature this region of the State would not have been visited by the Federal forces. We should have been on the high road to peace, without the firing of a single gnn at Favetteville, Aversashoro or Bentonville. Rorgn on "Dogs."-Montana is 'most as mercilers to canine creation as even Colorado. Recently in Denver the 'Deg Law" was the big theme of those provincial editors. Aldermen and Mayor thought they built themselves a monument more "durable than brass,", by butchering the king's English into "An Ordinance of Dogs." Husky policemen appeared as if engaged in some ennobling enterprise while watching after playful poodles, packing them off to pond, and having somebody get swindled.
